

GLAD HAND LOCK

Part # GHL

- For Trailer use
- Steel Construction
- Cuts off access to air brake lines
- Keyed Lock w/ two keys
- Ideal for distribution centers/ports
- Efficient, portable security

Glad Hand Lock is a trailer security device designed to cut off access to the air brakes line making the release of the glad hands of a trailer impossible. It can be applied very simply by removing the lock body and inserting the plug into the air hole on the trailer.
